

CENTRE FOR ADVANCED MICROSCOPY

Dear Microscopy User.

In order to secure future funding for CAM, it is extremely important to collect source funding statistics for microscopy related user projects. These metrics are submitted to Microscopy Australia, which supports a substantial part of CAM operations as well as high end instrument purchases. Please indicate in the table below your source of funding for the projects performed at CAM. Any industry linkages should be specified, even if access of CAM facilities is at ANU rates.

Name..... Uni No.....

Project Title.....

Project description (to determine appropriate instrument allocation).....

Is an industry partner involved in this project?.....
